TECHNOLOGY

# News Flash!

ActivePure<sup>®</sup> Technology is so advanced it was awarded the prestigious "Space Technology Hall of Fame" award!

## Beyond Guardian

- Active Pure Technology is proven to kill COVID -19 in FDA compliant Lab test. 09/30/2020
- FDA Grants Class II medical device status for Aerus Medical Guardian 06/30/2020
- Active Pure Inducted into the space technology hall of fame. 04/06/2017

## Air Purification System

# The First Air Purifier Scientifically Proven to Reduce COVID-19 on Surfaces!

The Aerus Hydroxyl Blaster with ActivePure Technology is the only air purifier scientifically proven to reduce the SARS-CoV-2 novel coronavirus on surfaces.

- ActivePure Technology was tested on live SARS-CoV-2 virus, not proxy or surrogate strains
- Demonstrated a 99.98% surface kill rate of SARS-CoV-2 virus within 7 hours
- Test completed in an independent FDA-compliant lab
- Made for indoor areas up to 20,000 sq. ft. - ballrooms, conference centers, restaurants, hotel lobbies, and large public spaces

The ActivePure Technology disinfection system is the safest, fastest and most powerful surface and air-purification technology available that minimizes recontamination and cross contamination in real time without the use of chemicals or ozone.

ActivePure<sup>®</sup> is designed to quietly work 24/7 to safely and effectively improve the air quality of your indoor space. Here are just some of the ways ActivePure<sup>®</sup> can help you:

- **FDA certified** to work safely 24/7 in places occupied by people and pets
- Reduces airborne and surface contaminants 99.997%
- Proven to kill 99.97% of bacteria, mold spores, viruses, germs and more
- Purifies the air, surfaces, clothing, skin etc.
- Removes harmful gasses
- Protects your customers, families and employees from dangerous pathogens

# Where It's Used

- Public places
- Homes
- Office Buildings
- Hospitals
- Schools
- Hotels
- Military facilities
- Professional Sports and other athletic facilities
- Restaurants
- Yoga & Dance Studios
- Doctor's & Dentists offices
- Assisted living facilities
- Veterinary Clinics / Hospitals
- Liberty Bell Museum
- Ground Zero Museum
- International Space Station
- Bars and Nightclubs
- International Resorts
- Malls and shopping plazas
- Manufacturing facilities
- Auto Dealerships
- Military Barracks & Mess Hall
- Government offices
- Airports and bus terminals
- Health Clinics
- Emergency operations centers
- Pharmaceutical clean rooms
- Karate studios and Gyms
- RV and Motor coaches

# Scientific Proof

Results based on laboratory testing  
scientific data repeatedly shows that ActivePure® is the most powerful air and surface purification technology ever discovered.

\*All test results after 60 minutes of operation in controlled environment, tested on surfaces, and air quality.

	MS2 bacteriophage RNA Vius Reduction of Airborne Contaminants: 99.999%
	Bacillus Globigii Bacterial Mold Reduction of Airborne Contaminants: 99.99%
	Phi-X147 bacteriophage DNA Virus Reduction of Airborne Contaminants: 99.99%
	Staphylococcus epidermis Reduction of Airborne Contaminants: 99.9999%
	Aspergillus Niger Fungal Mold Reduction of Airborne Contaminants: 99.99%
	Erwinia Herbicola Reduction of Airborne Contaminants: 99.999%

Active Pure technology is tested & proven!

## How long does coronavirus survive on surfaces?

### 3 hours:

This is the amount of time we know that coronavirus can survive and remain infectious in **airborne droplets**, but we don't know if humans produce enough in a single cough to infect another person.

### Up to 72 hours:

This is the amount of time coronavirus can stay active on **hard, shiny surfaces**. Think things like play equipment, door and public transport handles and your phone.

The virus does degrade over time, but you should avoid touching these surfaces in shared spaces, and if you can't do that, avoid touching your face afterward before thoroughly washing your hands.

### Up to 24 hours:

This is the amount of time it took for researchers to find no more viable traces of the virus on cardboard. This is also a good guide for other **porous surfaces**.

Porous surfaces are much less likely to hold viable amounts of the virus.

- Improved health through better air
- Most people sleep better
- Removes allergens / pollens 99.997%
- Kills bacteria, viruses, mold, fungi, covid-19 and more
- Helps provide a sterile environment
- Removes odors and musty smells
- Less dusting/cleaning & disinfecting
- Peace of mind protection
- FDA approved, NASA SpaceTechnology
